Mr. Speaker Sir, I beg to give notice of the following motion.

- Aware that the department of Land, environment and natural resources is tasked with the implementation of specific national government policies on natural resources, further aware that the department is also tasked with environmental conservation including soil and water conservation and forestry, concerned that along river Mwachema there is a lot of river sand harvesting, cutting of trees and farming up to the river banks, further concerned that this has negatively affected the river and the water levels have greatly reduced due to human interferences, this Motion urges the County Government to take an initiative to start a tree planting exercise along river Mwachema to conserve its natural state.
